AB1 has announced the acquisition of TicBits, a Finnish game developer for a total consideration of A\$6.5m (Enterprise value A\$4.8m), comprising cash of A\$3.5m, an equity or cash consideration in 2018 of A\$1.5m and potential earn outs of up to A\$0.75m, with an additional annual bonus of A\$0.75m for each year NPAT >A\$4.4m.

TicBits is an indepenent European game development studio with 9 employees. It has a portfolio approach and has developed a number of highly successful casual games with a focus on long tail games. TicBits has a strong track record, with:

- ➤ NPAT growth of 134% to ~A\$800k on revenue growth of 53% to A\$1.5m.
- ➤ A portfolio of 13 games published predominantly on the iOS platform.
- > A strong user base with over 750,000 monthly active users.

#### TicBits to deliver an increased contribution in CY17

In CY17 TicBits is expected to report NPAT of A\$0.72m on revenue of A\$1.5m. We expect an uplift in revenues from TicBits' library of games predominantly from the launch onto the android platform, introduction of AB1 licensed portfolio of brands utilising existing TicBits formats, cross-promotion of AB1 and TicBits users and access to TicBits' deep talent pool.

#### TicBits is a Strong Strategic Fit

The acquisition is expected to be earnings accretive:

- Highly complementary products and IP enhancing AB1's existing suite of games and licensed products.
- > Strong opportunities to leverage TicBits apps and game engines with AB1's IP portfolio and distribution.
- > Diversifies AB1's operations geographically, tapping Nordic mobile engineering talent at competitive rates in Turku, Finland.
- TicBits games have strong recurring revenue due to their large, loyal user bases and popular formats.
- > There are significant synergies that include substantial cross promotion opportunities with both user bases.

#### Recommendation and valuation

We maintain a BUY and have increased our price target to \$0.43 per share (previously \$0.40 ps.), based on a revenue multiple of 6.5x. AB1 looks attractive due to:

- ➤ Highly scalable business model revenues from the portfolio's long tail are anticipated to cover fixed expenses in CY2017.
- > Diversified product base to include e-books in 3Q CY2016.
- Growth in distribution channels includes deals with Xiaomi and Tencent.
